Current School-Wide Theme: The Growth Mindset

March 2017

From the Principal's Desk...

This semester is moving at a very fast pace. It is hard to believe we are entering the month of March and that Spring Break is right around the corner. As we move forward, continue to show support by checking your child's daily report and help to support with any discipline concerns that may arise. As the weather begins to warm up, students often lose focus, help us out to ensure we keep students focused. Ensure homework is being completed on a regular basis. Also, please double check with the school office and update phone numbers and addresses so that we can get in touch with you if needed.

As we begin to get closer to testing season, please make sure your child arrives at school on time and that absences are kept to a minimum. Our next round of universal screeners is set for the first two weeks in April and we want all students to meet their growth goals. Thanks for your continued support!

Fixed Mindset v's Growth Mindset Carol Dweck

Fixed Mindset (intelligence is static)	Growth Mindset (intelligence can be developed)
leads to a desire to look smart and therefore a tendency to - <ul style="list-style-type: none"> * avoid challenges * gets defensive or give up easily * sees effort as fruitless or worse * ignores useful negative feedback * feels threatened by the success of others. 	leads to a desire to learn and therefore a tendency to - <ul style="list-style-type: none"> * embrace challenges * persists in the face of setbacks * sees effort as the path to mastery * learns from criticism * finds lessons and inspiration in the success of others.
As a result, they may plateau early and achieve less than their full potential.	As a result, they reach even higher levels of achievement.

Dweck, C. (2006). *Mindset: The New Psychology of Success*. New York, USA: Ballantine Books.
